# MEET OUR FOUNDER

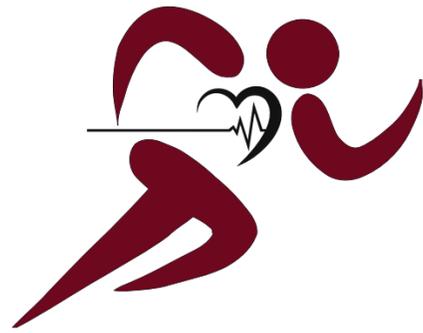

Since 2010, CEO Angie BE has lived her purpose through helping others align with their true radiance within. With Radiate Naturally she encourages those ready to transform their lives. Combining personal fitness, life coaching and spiritual wellness practices to help clients radiate from inside and out.

Growing up the daughter of a JW Elder, Angie knows first hand the pressures of growing up in a high control religious organization. Knowing the struggles of acclimation, she decided to be the resources she needed during her transition.

In 2015, she founded The Exodus Group, a non-profit organization. Her mission is to provide a safe space for other "shunned" individuals to empower those ready to transition into their new lives.
